

KC Aeronautical Museum VISION and GOALS

12-3-2024

After experiencing the “Sneak Peek” tour of the Museum facilities, we would like you to share your thoughts and ideas of our rejuvenation and expansion plans. Your input and point of view will be highly valued. Below are some questions. You probably have others. Please send responses to Terry@REKODirect.com or phone John Miller at 816-769-6181.

1. In order of importance, list the top 5 things that should be pursued this next year (2025).
2. List the names of other organizations/individuals you feel the Museum should partner with or pursue in order to expand its base and why?
3. Do you think the Museum should make an attempt to combine itself with the TWA Museum and if so, what would that merger look like?
4. What should be done to develop the monetary support of the City?
5. What exhibits do you feel need to be added in order for the Museum to qualify for STEM (Science, Technology, Engineering and Mathematics) grants?
6. If the Museum was successful in attracting a source(s) of additional funding, what should the Museum be asking for (possibly ramped up over 3 years) and how would the funds be spent?
7. Visualize the perfect KC Aeronautical Museum of the future and describe its amenities and forecast its annual budget.
8. What other aeronautical museums have you visited that are of comparable size? What impressed you about them?
9. If the museum contained a multi-purpose events center, are you aware of groups who would frequent it?

Please take your time and provide detailed answers to the above, as well as adding any additional questions/ideas you may have. In many ways, lying before us is a blank canvas and a tremendous opportunity.
